To: Michael Jurkiewicz  
UA Local 290 Weld Shop Forman  
20220 SW Teton Ave.  
Tualatin, OR 97062

From: F. Ray Andrus  
Chief Boiler Inspector

Re: UA 290 Weld Program

This letter is in response to the request from UA Local 290 to have their welding program recognized by the State of Oregon, Boiler and Pressure Vessel Safety Program. Having reviewed the program and in keeping with the ASME B31 piping code series, the Division recognizes the UA Local 290 weld shop as a “Technically Competent Group” for providing weld testing. Therefore, this recognition will remain in effect as long as the program continues to be reviewed by a third party accredited Authorized Inspection Agency on a triennial basis.

C: John Endicott  
UA Local 290
