

**AGENDA  
ITEM  
VII.**

**STATE OF OREGON**

**MEMORANDUM**

**BUILDING CODES DIVISION**

**DECEMBER 5, 2006**

**To:** Board of Boiler Rules

**From:** Andrea Simmons  
Policy and Technical Services Manager

**Subject:** Draft rules OAR 918-030-0015, "Contractor Licenses"

Action requested:

Board approval of draft rules for public hearing and subsequent adoption, unless substantially changed.

History:

On November 16, 2006 the board chair/vice chair group recommended draft OAR 918-030-0015 for the boards to consider. This rule stems from the division and the boards' efforts to ensure consistent licensing procedures in all program areas.

Discussion:

This draft rule-

- Applies to boiler contractors, electrical contractors, elevator contractors, and plumbing contractors;
- Requires that contractors must provide verification of Construction Contractors Board (CCB) licensing when applying to the division for a new license or for a license renewal; and,
- Allows the division, or a board, to suspend, revoke, or refuse to renew a division-issued license if a licensee fails to maintain a CCB license.

The Board of Boiler Rules is the appropriate advisory board to approve licensing procedure rules as they relate to boiler licensing, and to approve the amendments and repeals of existing rules in Division 225.

**Recommendation:**

Review and approve for public hearing and subsequent adoption the proposed licensing rules for Division 030, as they relate to boiler licensing and to amendments and repeals of existing rules in Division 225, unless substantially changed.

**Uniform Construction Contractors Board License Requirements for Contractors**  
**09/20/2006**  
*Draft 2*

**DIVISION 030**  
**GENERAL LICENSING REQUIREMENTS**

**918-030-0015**

**Contractor Licenses**

**(1) This rule applies to contractors' licenses issued by the division for the following: boiler contractors, electrical contractors, elevator contractors, and, plumbing contractors.**

**(2) These contractors must possess or maintain a Construction Contractors Board license under ORS Chapter 701 or OAR Chapter 812. Possession of a Construction Contractors Board license does not replace any license required by the division or the appropriate board.**

**(3) Any applicant for a division issued contractors license must provide verification of appropriate Construction Contractors Board licensing.**

**(4) The division or appropriate board may suspend, revoke, or refuse to renew any contractor license if the licensee fails to maintain a required Construction Contractors Board license. Failure to maintain a required Construction Contractors Board license includes, but is not limited to, suspension, termination, or revocation by the Construction Contractors Board, or failure to renew with the Construction Contractors Board.**

**Responsibility of Contractors**

(1) Persons licensed by the division for the business of installing, repairing or altering boilers, pressure vessels or pressure piping ~~shall meet and maintain the minimum requirements of the Oregon Construction Contractors Board.~~

(2) ~~Contractors shall~~ **must** correct any condition or deficiency resulting from installations, repairs or alterations, which are determined by any deputy, special inspector or process piping inspector to be a violation of the minimum safety standards of the **Oregon Boiler and Pressure Vessel Specialty Code**.

(~~32~~) Contractors ~~shall~~ **must** prepare and submit any documentation required by construction codes, repair and alteration standards or the authority having jurisdiction.

(~~43~~) Boiler contractors are directly responsible for assuring that all persons they employ have correct certification and are properly supervised in the installation, repair or alteration of boilers, pressure vessels or pressure piping systems. Supervisors ~~of~~ of persons holding a Class 1 or Class 6 certification ~~shall~~ **must** meet the requirements of OAR 918-225-06901.
