

OREGON STRUCTURAL SPECIALTY CODE AMENDMENTS

Last Updated May 7, 2009

Item Number	Description: Code Section & Topic	Proponent/ Affiliation	Action Taken By Structural Code Committee	Action Taken By Building Codes Structures Board	Comments on Action
SUBSTANTIAL REQUIREMENT CHANGES IN 2009 MODEL CODE					
311.2	Changes Occupancy Classification of aircraft hangars without maintenance or overhaul from an "S-2" to an "S-1"	N/A			
403.2.3	Requires specific impact rating for materials used in exit enclosures and elevator hoistways in High-rise structures	N/A			
403.3.2	Requires two separate connections to the water main for fire pump supply in High-rise structures.	N/A			
403.4.6	Requires natural or mechanical ability to remove smoke from each floor in High-rise structures	N/A			
403.6.1	Requires the installation of an additional elevator for fire service use in High-rise structures.	N/A			
412.4.6.1	Requires fire suppression designed to Group 1 or Group 2 for group 3 hangars based on hazard specific criteria	N/A			
419	New provisions for "Live/Work Units"	N/A			
422	New provisions Ambulatory Health Care Facilities	N/A			
423	New provisions for Storm Shelters	N/A			
Table 503	Significant reduction in allowable stories for certain Occupancy and construction types.	N/A			
703.6	Requires permanent identification of fire rated assemblies.	N/A			
705.5	Increases the fire separation distance required to look at exposure from the inside of the structure.	N/A
