

8/25/10

R105.2 Work exempt from permit.

18. Re-roofing, where replacement or repair of roofing does not exceed 30 percent of the required live load design capacity and the roof is not required to be fire-resistive.

Exception:

1. Permits for re-roofing are required for structures in wildfire hazard zones as provided in Section R325; and

2. Structures falling within the scope of Section R317.2.

3. Permits for re-roofing are required where more than 15% of the existing space sheathing is removed to facilitate the installation of new sheathing.
