

**Residential code amendment proposal process  
for Oregon Reach Code**

---

Beginning December 9, 2010, the division will begin accepting state building code amendment proposals relating to residential construction practices or methods related to energy efficiency for possible adoption in Oregon's first Reach Code as authorized by Senate Bill 79. The anticipated adoption date is July 1, 2011.

**Timetable:**

All code change proposals related to residential energy efficient buildings must be submitted by 5:00 p.m., January 25, 2011.

**Proposal Process:**

The Building Codes Division is continuing the process to adopt Oregon's first Reach Code. The Building Codes Division anticipates adopting the Oregon Reach Code in 2011. The division has identified the 2012 International Green Construction Code Version 2.0 as the model document for this code. As part of the process the division is requesting code amendment proposals for sections of the 2012 IGCC as it relates to residential energy efficient buildings. The IGCC references the National Green Building Standard ICC 700-2008 for residential construction requirements. Chapters 4, 5, 9, and 10 are outside the scope of BCD's authority and will not be considered for inclusion in the code. In order to achieve the division's goals, the division is seeking public proposals for possible residential code changes to the above referenced code. Energy efficiency is defined in SB 79 as "the use of construction and design standards, construction methods, products, equipment and devices to increase efficient use of, and reduce consumption of, electricity, natural gas and fossil fuels in buildings." The division is considering including some provisions peripherally related to energy efficiency as appendices that could be adopted by local jurisdictions. Proposals must include a brief explanation of the connection between the proposal and energy efficiency as defined above.

The division will utilize the public proposals submitted by the January deadline and discussions from the current code committee to develop an Oregon Reach Code to present to the appropriate advisory board or boards by April 2011, for an anticipated code adoption date of July 1, 2011.

**Contact:**

If you have any questions about the process, please feel free to contact Aeron Teverbaugh, Green Building Services Policy Analyst at (503) 373-2160 or [aeron.teverbaugh@state.or.us](mailto:aeron.teverbaugh@state.or.us) or Gabrielle Schiffer, Green Building Services Coordinator at (503) 373-7418 or [gabrielle.m.schiffer@state.or.us](mailto:gabrielle.m.schiffer@state.or.us).

**Code Change Proposals:**

All proposals must be submitted to the division in writing. The division has provided a form that includes the code amendment proposal criteria; the form is available at:

<http://www.bcd.oregon.gov/pdf/2652.pdf>.

Completed code change proposals may be sent via email to [Dana.C.Fischer@state.or.us](mailto:Dana.C.Fischer@state.or.us), via fax to 503-378-2322 or mailed to: Building Codes Division, Attn: Dana Fischer, P.O. Box 14470, Salem, OR 97309-0404.
