

ADVISORY BOARD PENALTY MATRIX
 Penalty/ Minimum Penalty with maximum amount Stayed
Adopted October 1, 2008

This penalty matrix applies to the following trade specialty codes: amusement rides, boiler, electrical, elevator, manufactured dwelling/installer, one and two family dwelling, plumbing, recreational vehicle, structural and mechanical and is generally used for acts defined in OAR 918-001-0036.

A permit violation by itself is usually handled by the local jurisdiction. However, the boards and the division reserve the right to assess a civil penalty for a permit violation.

The lesser amount on the matrix indicates the maximum amount of pre-hearing leeway that the boards and division have to stay a portion of a penalty for purposes of negotiation. Staying a portion of a penalty is within the sole discretion of the board or division acting on the board's behalf. Once a matter goes to hearing, the full penalty amount, as indicated on the matrix, will apply.
