June 9, 2010

The Department of Consumer and Business Services, Building Codes Division (BCD) is reviewing its disaster response procedures and updating its list of certified Earthquake (ATC-20, GQI & LQI) and Flood and Windstorm (ATC-45) inspectors. This [list](#) will be posted on BCD's [Commercial Structures Program](#) Web site under *Hot topics* as a reference for local building departments and BCD to quickly and directly contact necessary post-disaster inspectors.

The purpose of this letter is to obtain current contact and certification information for individuals willing to respond to a disaster. If you are presently on BCD's list of certified Earthquake, Flood, and Windstorm inspectors, or wish to be added to the list, please respond to this letter.

Distinct from BCD's prior requests to update contact information for specially certified building inspectors, BCD is seeking a serious commitment from local building departments and certified building inspectors in the development of a complete and dependable state-wide contact list that can be quickly and effectively deployed following a natural disaster.

Please provide BCD with your current mailing address, physical address, telephone number, cell phone number, fax number, and email address. Please also include your employer's contact information and any additional emergency contact information.

To better distinguish individual expertise, please indicate whether you are an engineer, architect or inspector and provide a list of licenses currently held, their issue and renewal dates, and your individual license numbers.

Please respond to this letter by June 30, 2010 if you would like to remain on this list as someone for BCD to contact to conduct earthquake, flood, or windstorm inspections.

You may respond to me at 503-373-0226 or at Dana.C.Fischer@state.or.us.

Regards,

Dana Fischer
